Subject: Amendment to Add a Supplemental Label – Tank-mix instructions for soybeans  
in select states  
Product Name: MON63410 Herbicide  
EPA Registration Number: 524-591  
Application Date: February 26, 2015  
Decision Number: 502389

Dear Ms. Kirk:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval is only for a supplemental label that is an addendum to the master label. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

This supplemental labeling contains some new and/or revised uses and/or directions which may be additional to the uses and/or directions found on the label on or attached to the container, but this supplemental labeling does not by itself constitute the complete set of use directions. The complete set of use directions is set forth on the container label as combined with this supplemental labeling.

A stamped copy of your labeling is enclosed for your records. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling.

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in any manner inconsistent with its labeling.

This label must be in the possession of the user at the time of herbicide application.

See the "Product Information" and "Mixing, Spraying, and Handling Instructions" sections of the label booklet for [insert brand name] Herbicide for essential product performance information.

**Read the "Limit of Warranty and Liability" in the label booklet for [insert brand name] Herbicide before using. These terms apply to this supplemental label and if these terms are not acceptable, return the product unopened at once.**

See the "Preplant, At-Planting, and Preemergence Use in Soybeans" section of the label booklet for [insert brand name] Herbicide for detailed instructions.

The tank mixtures recommended on this supplemental labeling may be applied in soybeans, including Roundup Ready Soybeans and Roundup Ready 2 Yield Soybeans, under the conditions described below, **in the states listed above only:**

#### Conventional Tillage Conditions:

For soybeans planted under conventional tillage conditions this product may be tank mixed with the following products and applied preplant up to 14 days prior to planting.

#### No-Till or Minimum Tillage Conditions:

This product may be tank mixed with the following products and applied preplant, at-planting, or preemergence in soybeans planted under no-till or minimum tillage conditions on wheat stubble or non-till field corn stubble.

[ Insert active ingredient(s), and/or the brand names of product(s) containing the following active ingredient(s), that are, at the time of label printing, registered for use preplant or preemergence in soybeans:

flumioxazin, chlorimuron-ethyl, chloransulam-methyl, Rowel®, Valor®, Gangster®]

Ensure that the specific product being used in the tank mixture is labeled for applications preplant or preemergence to soybeans. Read and follow label direction of all products in the tank mixture. The most restrictive label directions apply. The user is responsible for ensuring that the specific application being made is included on the labeling of the tank mixture product being used.

Note that applications of this product in the tank mixtures allowed on this label followed by cool wet weather conditions may result in crop injury.
